ABOUT ME

Senior Full-Stack Engineer with 4+ years of experience architecting, building, and deploying secure, scalable SaaS platforms. Proven expert in Node.js, React, AWS, and AI integration, with a strong track record of delivering enterprise-grade solutions and taking full ownership of the product lifecycle. Adept at translating complex business requirements into high-impact technical results.

WORK EXPERIENCE

🏢 **Healium Intelliscan Corporation** – Dover, Delaware, United States

Software Architect

[07/07/2025 – Current]

- Architected a HIPAA-compliant, FDA-approved AI medical platform from the ground up.
- Designed the complete system architecture, including a secure, multi-tenant SaaS infrastructure on AWS to handle sensitive patient data.
- Led technology selection and optimization for scalability and security.
- Engineered the core data models and API specifications for complex AI-driven diagnostic workflows from ultrasound data.
- Implemented robust security protocols and data encryption measures to ensure strict adherence to HIPAA and FDA standards.
- Collaborated with product and data science teams to translate clinical requirements into technical specifications and system design.

🏢 **Upwork Freelance** – Global

Senior Full-Stack Engineer & Software Architect

[05/2025 – Current]

As a Top-Rated freelance developer, I partner with clients to architect, build, and scale complex SaaS applications. My work involves the full product lifecycle, from initial architecture and technology selection to deployment and maintenance.

- Architected and delivered end-to-end SaaS products for clients in Health-Tech, Marketing-Tech, and Sales-Tech.
- Specialized in building AI-powered features, integrating with OpenAI and other third-party APIs to automate complex business workflows.
- Designed and implemented secure, multi-tenant infrastructures on AWS, ensuring data isolation and scalability.
- Developed custom analytics dashboards and data visualization tools to provide clients with actionable business insights.
- Consistently maintained a Top-Rated status by delivering high-quality code, meeting deadlines, and ensuring excellent client communication.

 **AAM Technology Solution** – Addis Ababa, Ethiopia

Senior Full-Stack Developer (DevOps Focus)

[02/2024 – 04/2025]

- Deployed a scalable microservices-based Ride-Sharing App on AWS, utilizing Kafka for real-time event streaming.
- Engineered the infrastructure using Docker, Amazon ECS, Amazon MSK, and Application Load Balancers to ensure high availability and performance.
- Managed the full CI/CD lifecycle with GitHub Actions to enable zero-downtime releases.

 **Yaybe ICT Solution** – Remote

SQL Server Query Optimizer & Mobile App Developer

[08/2023 – 02/2025]

- Designed and launched a mobile ERP app for Addis Ababa Abattoirs Enterprise (AAAE) using native Android tools.
- Optimized SQL Server queries, improving system response times by 60%.

 **Toplink Technology** – Addis Ababa, Ethiopia

Frontend Developer & DevOps

[02/2023 – 02/2024]

- Engineered a multi-tenant ERP System(WUMIS) using React, Next.js, and REST APIs.
- Built reusable UI components and improved accessibility scores by 40%.
- Managed deployments with Docker on DigitalOcean and implemented CI/CD automation.
- Contributed to frontend performance improvements and SEO.

 **Birabiro Taxi** – Remote

Backend Developer

[03/2023 – 05/2023]

- Developed backend architecture for taxi dispatch system with Node.js and MySQL.
- Delivered RESTful APIs for mobile and admin apps with authentication and geolocation.
- Improved system performance by optimizing database queries and server responses.

 **Black Bridge Technology** – Remote

Full-Stack Developer

[01/2023 – 04/2023]

- Spearheaded Next.js development with server-side rendering to enhance SEO and load performance, reducing page load times by 40%.
- Applied strict TypeScript typing to improve maintainability, reduce bugs, and support collaborative scaling.
- Built and maintained reusable component libraries aligned with design systems and UX best practices.
- Engineered and consumed RESTful APIs for dynamic content delivery, ensuring seamless data integration between the frontend and backend services.
- Integrated Ant Design to rapidly deliver consistent, accessible UIs with scalable theming.
- Collaborated with product, design, and backend teams in an Agile workflow, ensuring cross-functional alignment and rapid iteration.
- Delivered polished, user-centered UIs and maintained scalable, reusable component libraries.

Full-Stack Developer

[03/2022 – 01/2023]

- Developed and maintained full-stack applications using modern JavaScript technologies, ensuring seamless frontend-backend communication.
- Implemented robust authentication, authorization, and security best practices to safeguard application integrity.
- Enhanced overall user experience by reducing page load times by 30% and increasing user retention rates by 15% through frontend performance optimization.

EDUCATION AND TRAINING

Bachelor's of Science, Software Engineering

Bahir Dar University

Human Centered Design

BiT Business Incubation and Techno Entrepreneurship Center

SKILLS

Languages & Frameworks

Javascript / TypeScript / Node.js / Express.js / React.js / Next.js / Vue.js / Nuxt.js / GraphQL / Nest.js

Database

PostgreSQL / MySQL / MongoDB / DynamoDB / Redis / Supabase

Cloud & DevOps

AWS (Lambda, EC2, S3, RDS, CloudFront, Route 53) / Terraform / Kubernetes / Nginx / Docker / Ansible / GitHub Actions / Jenkins

Practices & Tools

Agile/Scrum / Infrastructure as Code / Slack / Jira / Git / Code Review / Figma / SDLC / Performance Optimization

Core Competencies

SaaS Architecture / AI/ML Integration / System Design / Security & Compliance (HIPAA)

CERTIFICATIONS

[Upwork]

Top-Rated Freelancer Awarded to the top 10% of talent on the platform for a proven history of high-quality work and client satisfaction.
